#### Interview

- The GC-3310 portable gas chromatograph adopts a highly integrated and integrated design. The built-in air source of the instrument does not require an external air source and a computer, and the outer box uses an imported storm box. The anti-drop height is more than 1.2 meters, and the modular structure design makes the maintenance in the later stage simple and convenient. Ensure that customers can quickly and sensitively detect accurately anytime, anywhere.
- The instrument adopts a new industrial design, and applies the current mainstream network communication technology to the portable gas chromatograph to develop a new chromatograph with international advanced technology. The instrument uses the latest high-integration industrial-grade chip, bus technology, Ethernet technology, micro-flow gas control technology and data processing software to optimize temperature control accuracy and gas control accuracy, which fundamentally improves the reliability of the instrument.

### >> System performance

#### Can be configured with a variety of detectors

- Wide-range helium ionization detector (PDHID)
- Discharge mode: pulse discharge
- Baseline noise: ≤0.1mv
- Baseline drift: ≤0.5mv/30min
- Detection limit: ≤1.0×10-11g/mL
- linear range: 106
- Specially processed magnifying plate, stable during the wet season
- Digital amplifier circuit with smaller signal-to-noise ratio and wider linear range2

### > Hydrogen flame ionization detector (FID)

- Program automatic ignition (automatic ignition above 130 °C)
- automatic ignition;
- Stabilization time: ten minutes
- Detection limit: ≤ 3 × 10-12g / s (n-hexadecane / isooctane)
- Baseline noise: ≤ 5 × 10-14A
- Baseline drift: ≥1×10-13A/30min
- Linear: ≥107

#### > thermal conductivity detector (TCD)

Sensitivity: S≥6000mV•ml/mg (n-hexadecane)

Baseline noise: ≤20µV

Baseline drift: ≤30µV/30min

linear range: ≥ 104

#### Injection switching valve

- Fully meet the needs and applications of different gas analysis (up to 8 valves can be configured)
- Valve drive automatic control and sequence automatic operation
- Imported purge-free spool
- Long life fast switching solenoid valve (1 million times, 10mS)
- Low leakage rate 10-7Pa•m3•s-1
- Dead volume 0.5µL
- Purge valve integrated design
- Patented spool cross-section purge technology
- Prevent external leakage and internal leakage

# Technical performance

Maximum error: <3%</li>

Stabilization time: <30min</li>

Working environment: -40 ~ 50 °C

Detection channel: 2

 On-site continuous detection capability: Mobile detection under power-on state, continuous operation for no less than 10 hours

### >> Temperature control indicators

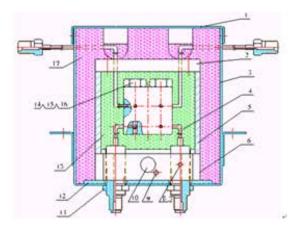

Temperature control area: 8 roads

Temperature control range: 4 ° C ~ 450 ° C above room temperature, increment: 1 ° C, accuracy: ± 0.01 ° C

Temperature programmed order: 20 steps

Cheng Sheng rate: 0.1 ~ 60 ° C / min

Program boost: 8th order

### >> Other parameters: size, weight, power

• Dimensions: 625 × 500 × 297mm

Weight: <15kg</li>

Power source: 220V±22V, 50Hz

Power: ≤500W

#### **Technical characteristics**

- Fast and sensitive and accurate detection anytime, anywhere: The instrument is highly integrated and integrated. The built-in air source of the instrument does not require an external air source and a computer. The outer box uses an imported storm box. The anti-drop height is more than 1.2 meters, and the modular structure design makes the maintenance in the later stage simple and convenient. Ensure that customers can quickly and sensitively detect accurately anytime, anywhere.
- The Oven: Each column has a separate oven temperature control system. Due to the compact structure of the oven, the temperature rise is very fast and the oven temperature is very stable. Because each column has an independent temperature control system, when one column needs to age, it does not affect other columns.
- Control System: Built-in industrial computer with touch screen function, combined with powerful spectrum software and Windows PC system, users can use screen creation methods, design custom reports, view calibration curves, acquire and process data, create and run Batch inspection. At the same time, it can also control the opening and closing of the valve inside the chromatograph, and realize the functions of backflushing and center cutting.
- The new IC temperature control system, high temperature control accuracy, reliability and anti -interference performance; with eight independent temperature control output, can achieve 20th-order program temperature, near-room temperature control ability, up / down speed Faster.
- Automatic gas shutoff protection function, when the carrier gas pressure is less than the safety threshold, the system will automatically cut off the detector voltage, protect the detector from damage, and ensure the safe operation of the instrument.

#### **HPLC Servicing, Validation, Trainings and Preventive Maintenance:**

HPLC Servicing: HPLC Servicing: We have team of service engineers who can attend to any make of HPLC promptly @the most

affordable cost.

Trainings :We also take up preventive Maintenace to reduce downtime of HPLC's Trainings.

AMC's/CMC :AMC's/CMC :We offer user training both in-House and at customer sites on HPLC principles, operations, trouble-

shooting.

**Validations** :Validations :We have protocols for carrying out periodic Validations as per GLP/GMP/USFDA norms.

Instruments: We offer instruments/Renting Services Modules like pumps, detector etc. on Rent.

### **About Analytical Technologies**

Analytical Technologies is synonymous for offering technologies for doing analysis and is the Fastest Growing Global Brand having presence in at least 96 countries across the global. Analytical Technologies Limited is an ISO:9001 Certified Company engaged in Designing, Manufaturing, Marketing & providing Services for the Analytical, Chromatography, Spectroscopy, Bio Technology, Bio Medical, Clinical Diagnostics, Material Science & General Laboratory Instrumentation. Analytical Technologies, India has across the Country operations with at least 4 Regional Offices, 6 Branch Offices & Service Centers. Distributors & Channel partners worldwide.

# **Our Products & Technologies**

UV/VIS Spectro 2080+ Double Beam

Infra FTIR

Optima Gas Chromatograph 3007

Optima Gas Chromatograph 2979 Plus

Flash Chromatograph

Atomic Absorption Spectrophotometer

Liquid Partical Counter

Optical Emission Spectrophotometer

DSC/TGA

Semi Auto Bio Chemistry Analyzer

HEMA 2062 Hematology Analyzer

Micro Plate Reader/Washer

URINOVA 2800 Urine Analyzer

Total Organic Carbon 3800

Fully Automated CLIA

NOVA-2100 Chemistry Analyzer

PCR/Gradient PCR/ RTPCR

TOC Analyzer

Laser Particle Size Analyzer

Ion Chromatograph

Water purification system

#### Regulatory compliances

# **Corporate Social Responsibility**

Analytical Foundation is a nonprofit organization (NGO) found for the purpose of:

- 1.Research & Innovation Scientist's awards/QC Professional Award: Quality life is possible by innovation only and the innovation is possible by research only, hence ANALYTICAL FOUNDATION is committed to identify such personallities for their contributions across various field of Science and Technology and awarding them yearly. To participate for award, send us your details of research / testing / publication at Info@analyticalfoundation.org
- 2. Improving quality of life by offering YOGA Training courses, Work shops/Seminars etc.
- 3. ANALYTICAL FOUNDATION aims to DETOXIFY human minds, souls and body by means of yoga, Meditation, Ayurveda, Health Care, Awards, Media, Events, Camps etc.
