

THCC - 3210 Temperature Humidity Climate Chamber

EPCC / PRODUCTS / APPLICATION / SOFTWARE / ACCESSORIES / CONSUMABLES / SERVICES

Analytical Technologies Limited

An ISO 9001 Certified Company

www.analyticalgroup.net

Uses

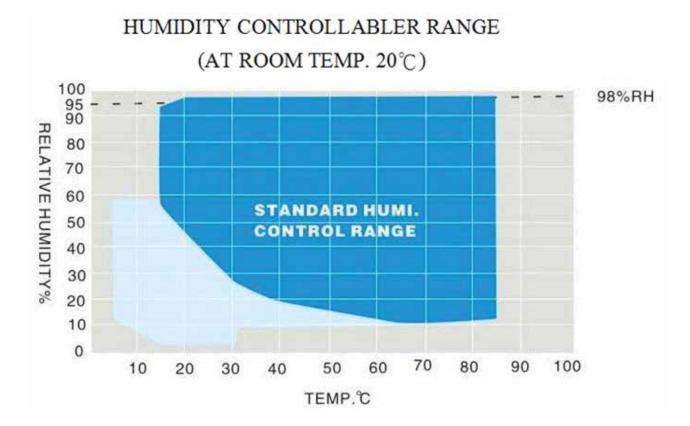

This equipment can simulate different environment condition. It's appropriate for testing material performance, such as resist heat, resist dry, resist humidity and resist cold. That can define performance of material.

Characteristics

1.Use the high precision microcomputer touch temperature and humidity controller with high stability of platinum resistance to temperature and wind speed in the circulatory system of temperature and humidity test.

2.control temperature&humidity well-distributed, precisely and steady.

3. Completely independent system separate for testing in high temperature, low temperature and constant temperature&humidity environment.

>> Specification

Model		THCC-3210				
Inner Size W×H×D(cm)		100×100×100				
External Size W×H×D		158×195×168				
(cm)						
Vol	ume (L)	1000L				
Temp&Humi Control Range		Temp. Range:A: $0^{\circ}C \sim 100^{\circ}C$ Humi.range: RH40%-95%B: $10 \sim 60^{\circ}C$ C:C: $-60^{\circ}C \sim 150^{\circ}C$ (Other temperature and humidity range can be customized)				
Temp&Humi Fluctuation		±0.5°C; ±2.5%RH				
Temp&H	um Departure	±0.5°C-±2°C; ±3%RH (>75%RH) ;±5%RH(≤75%RH)				
Controlle	er Resolution	±0.3°C; ±2.5%RH				
Cont	roller Brand	Youyi				
-	Inwall	SUS steel plate				
Material	Housing	SUS steel plate surface Coating				
Material	Heat Insulator	resistance to high temperature, high chlorine acid b vinegar foam insulation materials				
Aie Circulation Way		centrifugal fan-broadband type force air circulation				
Refrigeration Way		cascade type multiple refrigeration				
Refrigerater		fully enclosed piston compressor Taikang France				
Refrigerants		R4O4Aor American dupont environmental protection cold media (R23+R404)				
Condensing Way		Air-cooling				
Heater		nickel chrome heating wire heater				
Humidifier		semi-closed steam				
Water Supply Way		automatic cycle water supply				
Standard Accessaries		*50mm test hole on the left				
		 *Humidity cloth				
Safety Devices		*Leakage current *Overload *Compressor overload *Over temperature *Ultra-wet/dry *Humidification temperature protection.				
Power		380V or 220V AC±10% 50/60Hz				

>> Structure Instruct

Heating and humidifying system

Heater

Spiral nichrome tubular electric heating element heater, High accuracy temperature fluctuation, and with long lifetime!

Humidifier

Use shallow slot method to humidify. Humidity measurment use wet and dry bulb method.

Over-temperature protector: (protect the sample and the chamber) Humidifier empty burn preventer (protect the humidifier)

Temp & Humi. Control Range (Specific test requirements customize)

N/

1. Choice of wind circulation way: Forced air supply

If you have requirements on wind supplying way, this kind of air supply is the best choice.

2. Choice of water supply system: RO (Reverse osmosis)

Our equipment use pure water when doing humidity test, can automatically add water to make test more convenient.

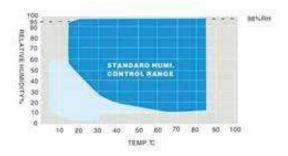

3. Polymer film/wheel dehumidification system

If you need to do low temperature and low humidity test for long time, then honeycomb chemistry dehumidifier system will be your best choice. It can make to 10°C 10%RH or lower.

4. LN2/LCO2 fast cooling system

We offer all kinds of imported professional LN2/LCO2 solenoid valve and related controlling system to meet your requirements of fast heating and cooling.

Heating and humidifying system

5. Equiped with glass door and operation hand hole on the door

If you need to move or open the test sample during testing, to equip a glass door and operation hand hole to avoid effect to test condition when open the chamber door.

6. Recorder to get test data in time

If need to record different points environmental and sample temperature, to equip a temperature recorder is a best choice.

Chamber structure

Metal plate material

The inner and outside material is SUS mirror surface corrosion resistant plate, inner chamber two sides have sample Rail frame, it has the adjustable hang strip, heat preservation and heat insulation at least 10cm with hardness polyamine foaming.

It has the high quality bakelite and glass fibre door frame cutting off the heat conduction. Heat-proof quality is quite good,the door airtight seal strip is the two-way wide high-temperature resistance silicon foaming.

Test space blowing-in circulate

Mature blowing-in system use high temperature resistance multiple-blade wind wheel which is drove by the motor, the upside blade blow the wind in and the downside return the wind. When the temperature is -70-100°C, the error will be less 2°C

Controller system

Use the Tato controller which is with low energy consumption (20W), the controll system accuracy is ±0.3°C.

High mark screen

5.7 inch LCD color screen with interactive parameter input method, resolution ratio is 800*480.

Big memory capacity

120 groups / 1200 section all repeatedly:maximum is 999 (can repeated unlimited), part repeated: support maximum 99 PC-Link, MODBUS (ASCII, RTU). And has fact curve with temperature and humidity.

Convenient and fast connect the computer

Controller use R232 port, if you monitoring the history curve and need to playback the data, you can use editing operation.

Controlling interface

HPLC Servicing, Validation, Trainings and Preventive Maintenance :

HPLC Servicir	ng :HPLC Servicing : We have team of service engineers who can attend to any make of HPLC promptly @the most			
	affordable cost.			
Trainings	:We also take up preventive Maintenace to reduce downtime of HPLC's Trainings.			
AMC's/CMC	:AMC's/CMC :We offer user training both in-House and at customer sites on HPLC principles, operations, trouble-			
	shooting.			
Validations	:Validations :We have protocols for carrying out periodic Validations as per GLP/GMP/USFDA norms.			

Instruments :Instruments :We offer instruments/Renting Services Modules like pumps, detector etc. on Rent.

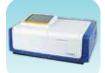

About Analytical Technologies

Analytical Technologies is synonymous for offering technologies for doing analysis and is the Fastest Growing Global Brand having presence in at least 96 countries across the global. Analytical Technologies Limited is an ISO:9001 Certified Company engaged in Designing, Manufaturing, Marketing & providing Services for the Analytical, Chromatography, Spectroscopy, Bio Technology, Bio Medical, Clinical Diagnostics, Material Science & General Laboratory Instrumentation. Analytical Technologies, India has across the Country operations with at least 4 Regional Offices, 6 Branch Offices & Service Centers. Distributors & Channel partners worldwide.

Our Products & Technologies

Optical Emission Spectrophotometer

DSC/TGA

Semi Auto Bio

Optima Gas

Chromatograph

2979 Plus

Analyzer

Flash

Micro Plate

Reader/Washer

URINOVA 2800

Urine Analyzer

Liquid Partical Counter

Total Organic Carbon 3800

Fully Automated CLIA

PCR/Gradient PCR/ RTPCR

TOC Analyzer

Laser Particle Size Analyzer

Ion Chromatograph

Water purification system

Regulatory compliances

Corporate Social Responsibility

Analytical Foundation is a nonprofit organization (NGO) found for the purpose of:

1.Research & Innovation Scientist's awards/QC Professional Award : Quality life is possible by innovation only and the innovation is possible by research only, hence ANALYTICAL FOUNDATION is committed to identify such personallities for their contributions across various field of Science and Technology and awarding them yearly. To participate for award, send us your details of research / testing / publication at Info@analyticalfoundation.org

2. Improving quality of life by offering YOGA Training courses, Work shops/Seminars etc.

3. ANALYTICAL FOUNDATION aims to DETOXIFY human minds, souls and body by means of yoga, Meditation, Ayurveda, Health Care, Awards, Media, Events, Camps etc.
